**MISCELLANEOUS COMMUNICATION TO THE EXAMINER**

The Notice of Allowability mailed March 16, 2007 included a statement on page 2 that the “drawings filed on 03/01/2002 have been approved by the examiner.” The purpose of this Communication is to note that the “03/01/2002” reference in the notice was apparently made in error. In fact, substitute (i.e. formal) drawings were submitted in this case on or about September 22, 2006 (as reflected in PAIR), and it those drawings that should be used in the issued patent.

Also, the undersigned notes that documents concerning this case continue to be returned to the Office as “Undelivered.” A Change of Correspondence Address was sent to and processed by the Office on April 18, 2005 (again, as reflected in PAIR). As noted in that Change Of Correspondence Address, all correspondence in this case should be directed to the address associated with the undersigned’s Customer Number 50086.

The issue fee is being paid under separate cover.

Respectfully submitted,

---

David H. Judson  
Registration No. 30,467
